

# AT THE FIELD11

10/10

# HCRCC

Actually, the occasion was at Mallards Landing Airfield at their 10/10 Fun Fly. The HCRCC was invited to perform some static airplane displays and do a limited flight demonstration. However, the recent generous rainfall had softened the grass strip and field management had to cancel the “Fun Flying” events lest they damage the runway grass surface.

This change of plans resulted in the RC Club being requested to continue their flight demonstrations and the response from the full scale pilots and their families was generous. Ron Hargrove, Nick Syracuse and Tom Sons provided the hardware as pictured and Ed Moore, Dishun McCord and Jim Murphy gave their support to the day's activities.
