

HCRCC - AT THE FLYING FIELD TUESDAY ~ 7/28/09

The Geezer Gang was out in force this Tuesday though the extra warm temperature kept some close to home. The breeze was from the WSW at 5 - 10 when we started and kicked up to close to 20 by noon. Still, it was a good flying day. JRM

Glen Gladis and Rich Rousseau show how it is done with a first class hand launch of just one of Rousseau's powered sailplanes he brought to the field this date. Enjoyment of flying sail planes has come of age with the Geezer Gang as evidenced herein.

John Hinton - showed up at the field today ready to fly his "Tango". Shown with John is his ever faithful "right hand" Pam Williams.

Assisting John in prepping the Tango for flight is Joe Britt. Seems Joe can be seen helping about everyone at one time or another. Just that kind of guy!

Don Cannon - dropped by the field today and brought his eight year old granddaughter - Wendy Cannon along. Nice to see Don again and very nice to meet Wendy.

Jim Brooks is cut down to size by his "Bird Of Time" sailplane. His most recent addition to his hangar, this sailplane will challenge the pilot to stay on his toes to keep it in sight. This great performer makes Jim quite proud of his "Big Bird".
