

# ***At The Flying Field*** – 7/5/16

Dave Mitchell was at the flying field this morning - with of all things – a freshly rebuilt trainer. (The tired old trainer was given to Dave by a retiring RC pilot) You have to wonder, with his recently completed Waco (a thing of beauty) why would he devote all the time needed to produce this trainer? The answer will be a blessing to all Student Pilots in the Club. He did all this to provide a trainer and Buddy Box setup for use in training new pilots. He did the “Maiden Flight” on the plane this morning and has said it is ready for training duties. Interested? Email Dave or contact him at the field when your paths cross. Way to go Dave – Lead on!
