

At The Field 10 9/17

Joe Brett brought his latest construction project to the field today and it is a beauty. A Midwest kit (sticks & paper) of the WWII ME-109. Beautiful job Joe. The German fighter took 12 months to build and was a labor of love for Joe. It uses an OS 46 FX engine for power and is covered with ultra coat.

HCRCC

Jim Brooks performs the perfect hand launch of Julian's large Sailplane being flown by Pres. Ron Hargrove. Julian had the plane ready for flight but the stiff east wind caused him some concern so Ron agreed to perform the duties.
