

# At The Field 7 9/13

# HCRCC

**Bryan Moore** brought his T-Rex 550 helicopter to the field and put it through it's paces on Sunday. An impressive performer, A Dominator 850 engine using a 5000 mAh battery provides the power for an approximately 4.5 minute flight.

**Bryan** said he has been flying helicopters for 3.5 years and just began flying fixed wing models this year. He uses a Spektrum 2.4 GHZ DX 9 radio system for control of his flight systems.
